Craft Ideas on the “Ascension of Jesus”

Have students color pictures of Jesus, and cut them out. Attach a piece of yarn, and poke the yarn through a hole in the top of a plastic cup. Glue cotton balls around the cup to illustrate the clouds. This way, Jesus can “ascend” and disappear into the “sky.” OR you can glue your cotton balls to paper or card stock, and slide the Jesus on a string through holes punched into the paper. Attach a verse caption and message, if desired. If you feel extra daring, add glitter. Have fun!
